IV. Reserve Status: The following chart indicates the City's current budgeted reserve status by fund. This fiscal year our Fund Balance Policy requires a minimum reserve of 2% for contingencies and 13.28% for the undesignated reserve. There is no annual requirement for designated reserves; however, the budget may set aside money in this reserve for future planned purchases. This budget also has placed money in line items that serve as sinking funds.

VII. Conclusion: We continue to complete projects and purchases, as we wrap up the construction season. We received our initial property tax revenue in the 2nd Fiscal Quarter. Our water fund balance continues to decrease with the expenditure of the bond proceeds for the dam project. For the most part, the departments are keeping expenditures in check and we continue to accomplish the projects and purchases that were identified within the capital improvements plan.
